

Co-funded by the European Union under Grant Agreement n° 101166718

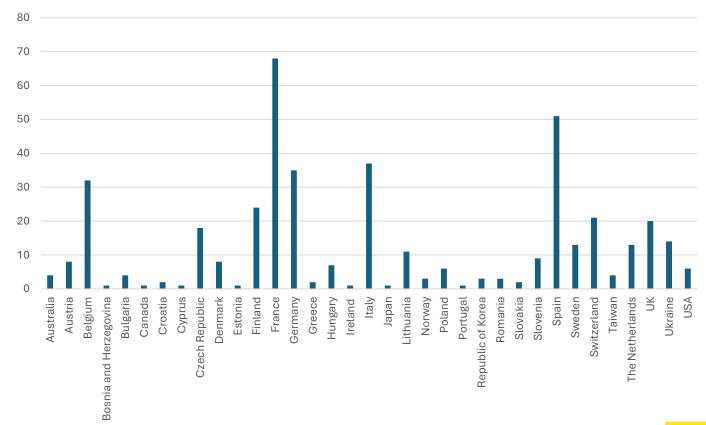

09 September 2025 Annual event n°1

PARTICIPANTS

- 251 participants in-person from 27 countries over the next 3 days
- Around 150 participants registered for online participation
- Partners but also end-users and stakeholders

In-person and online participants per country

FIRST YEAR HIGHLIGHTS - A GROWING COMMUNITY

- 144 participating organisations
- 48 organisations registered as endusers (25 outside of the Consortium)
- 42 organisations registered as stakeholders
- 5 members of the External Advisory Board
- A contact list of 1125 persons!
- Strong interactions with the Colleges

FIRST YEAR HIGHLIGHTS – DELIVERING IMPACT

- 4 Lunch-and-Learn with an average attendance of 110 persons
- First publication of deliverables and milestones 48 in total, incl. 6 SotA
- Launch of the mobility programme

I had the opportunity to spend this time at Helmholtz-Zentrum Dresden-Rossendorf (HZDR) in Dresden as part of my PhD.

Huge thanks to everyone who made my stay easier, brighter, and so much fun especially my supervisor, Natalia Mayordomo Herranz, for her guidance and

I'm also deeply grateful to my supervisors in Spain, Tiziana Missana and Ursula Alonso de los Rios, and to the EURAD-2 Mobility Programme for making this stay

I met incredible people, made unforgettable memories, and had the chance to learn and enjoy every moment both inside and outside the lab 🥼.

Already back home, but still carrying with me all the experiences, lessons, and friendships from those months in Dresden .

(Photos speak louder than words, so here's a little dump of these months - many amazing people are missing from these pictures! (**)

I was honored to present part of my research in a talk titled: "How bentonite microbial communities and copper canisters respond to nuclear waste repository conditions: effects of gamma radiation and high compaction."

This work is part of the #EURAD-1 and EURAD-2 projects, and I would like to extend my sincere thanks to the EURAD-2 Mobility Programme for financially supporting my participation in the conference.

It has been a very rewarding week, both professionally and personally, full of inspiring discussions, reconnecting with colleagues, and forging new connections

I'm really glad to have had the opportunity to undertake a mobility action in programme EURAD-2 work package STREAM (Sustainable TREAtment and iMmobilisation of challenging waste) to get valuable insight on the concrete formulations being developed at Instituto de Ciencias de la Construcción Eduardo Torroja IETCC CSIC for the immobilisation of challenging radioactive wastes.

Work package STREAM focuses with two of its tasks on the design, optimization, and upscaling of sustainable and effective radioactive waste treatment and conditioning

This is an exciting and necessary effort, as it helps EU member states overcome problems related to waste generated from nuclear power plant operation by providing safe radioactive waste management practices, should the member states

#EURAD2 #STREAM #CSIC #IETcc #RadioactiveWaste #NuclearWaste

09 September 2025 Annual event nº1

GENERAL INFORMATION

Objectives

- Share the progress of the first year
- Reinforce interactions between WPs
- Brainstorm about future improvements
- Provide networking opportunities
- Celebrate the successfull launch
- Continue to build the community

- Use Ventla App to see agenda and check-in each day QR code at the entrance of each room
 - Gamification / Leaderboard complete actions to earn points and a small gift at the end of the event!
- Slides and summary of the event will be made available on EURAD-2 website
- WiFi name and password on your badge
- Leave your lanyard at the entrance when leaving the event
